

Participants' Feedback:

AFRINIC Zero to IPv6 Course

AFRINIC Zero to IPv6 Certified in 21 Days with 100% sponsorship

Sudan Network Operators Group (sdnog) is always happy to support our community and do what we can to help. We are grateful for the support we receive from other organizations, as it helps us achieve our goals and make a difference. Their support strengthens our ability to share knowledge and build skills within the community.

AFRINIC has been a great supporter of sdnog over the years. Through the AFRINIC Academy, they have provided valuable resources and training for the Sudanese community. One of their most impactful programs was the "Zero to IPv6 Certified in 21 Days" course.

AFRINIC offered a 100% discount to participants who completed the program within 21 days, making it more accessible and encouraging people to take part!

This program has been very helpful for our community, giving people new skills and knowledge about IPv6. We are glad we had the chance to bring this opportunity to Sudan and to support those who benefited from it. It shows how working together can make a real difference.

“ I would like to extend my heartfelt gratitude to AFRINIC and SdNOG for their incredible support in helping me achieve my IPv6 certification. Thank you for believing in me and for your unwavering dedication to empowering professionals in the field of networking and internet technologies. This milestone is not just a personal achievement but a step forward in contributing to the growth and adoption of IPv6 in Sudan"

Razan Abdelhadi Altahir
ICT Engineer @ University of Khartoum

“ The tech world is all about learning new technologies, staying up to date, sharing experiences, and maintaining open channels with colleagues something

that SDNOG and AFRINIC have made possible for us. They have become the organizations that empower us with courses, workshops, certifications, and countless opportunities. We are truly grateful for all the support and resources provided, and we look forward to continued growth together."

Aliaa Mohammed Okasha
ICT Engineer @ University of Khartoum

“ I would like to express my sincere gratitude to both SDNOG and AFRINIC for their outstanding support throughout the journey to obtaining the IPv6 Engineer (SILVER) certificate. Your dedication, quick responses, and constant support during the workshop and certification process made a significant difference and were key to the success in my career journey. Thank you for your professionalism, commitment, and the seamless guidance you provided. Your efforts truly made this journey both smooth and rewarding."

Shahd Elfatih Ahmed Khalil
MP&E IP Engineer @ QAST
