

Different Paths in Mobile Development

Mobile development continues to evolve, offering developers many ways to build a successful career — from freelancing and app monetization to full-time jobs in regional and global markets. This workshop will highlight different paths and opportunities in mobile development, how to choose the right one for you, and the skills needed to grow in the field.

Workshop Level

Beginner to Intermediate

An open and free discussion session ! everyone interested in mobile development is welcome to join!

Instructor

Musab Nasreldin

Agenda

1. Freelancing as a Mobile Developer

- Choosing the right tech stack (Android, iOS, Flutter, React Native)
- Freelance platforms and local client opportunities
- Managing projects and building a strong profile

2. App Monetization

- Different revenue models: ads, in-app purchases, subscriptions
- Best practices for generating sustainable income
- Case studies and real-life examples

3. The Impact of AI on the Freelance Market

- How AI tools are changing the way developers work
- New opportunities and challenges for freelancers

4. Full-Time Jobs and the Global Market

- What skills companies in the Gulf and worldwide are looking for
- Career development tips and interview preparation
- Building a professional portfolio and online presence
